WHAT'S THE DEAL WITH “GREY’S ANATOMY”?

Abstract

For this research paper, my aim was to find a fallacy in any source or medium of my choosing. Being a dedicated fan of “Grey’s Anatomy”, and a soon to be nursing student, I have come to realize that medical television isn’t always what it seems; and it sure isn’t all that realistic.

Nonetheless, I set out to find the fallacies within “Grey’s Anatomy”, and with that I found numerous scholarly and non-scholarly Internet articles about this issue. In the end, I gathered evidence of the fallacies within “Grey’s Anatomy” from real-life doctors, interns who could and could not relate to the show, as well as fans. This paper is a collaboration among my sources and my own opinions about “Grey’s Anatomy”.
